Corporate Social Responsibility and Environmental Management

EDITOR
PROFESSOR RICHARD WELFORD
Sasin School of Management, Bangkok

Aims and Scope

Corporate Social Responsibility and Environmental Management provides a resource for the ever increasing number of organisations concerned about social and environmental responsibilities in the context of sustainable development and are interested in developing tools and case studies to improve their performance and accountability in these areas. The focus of the journal is on research and practical advice for the development of tools, practical case studies and an assessment of the relative strengths and weaknesses of different approaches. It encourages debate over the development of issues as well as monitoring the demands being made of various stakeholder groups. It discusses issues of methodology, principles, practice, science, technology and law. It is a refereed journal and contributions of a high quality aimed at an interdisciplinary audience are invited.
